

MyDiscovery

AI-Powered Discovery:

Transforming Search, Connecting Knowledge, and Empowering Institutions to deliver Personalized eResource Discovery and Seamless access for their Patrons.

Technology: Innovative and Agile

MyDiscovery's advanced technology empowers Institutions to efficiently manage, search, and access their information resources. **Key features include:**

■ Customizable Portals

Fully customizable library or information portal built on an intuitive content management system.

■ Comprehensive Content

Includes resources from all leading publishers.

■ Catalog and Holdings Management

Built-in tools for streamlined resource management.

■ OpenURL Link Resolver

Simplify access to full-text content.

■ Advanced Analytics

Gain insights with detailed statistics and a built-in SUSHI statistics harvester.

■ Remote Access

Single-Sign-On (SSO) ensures secure and convenient access.

■ Security Settings

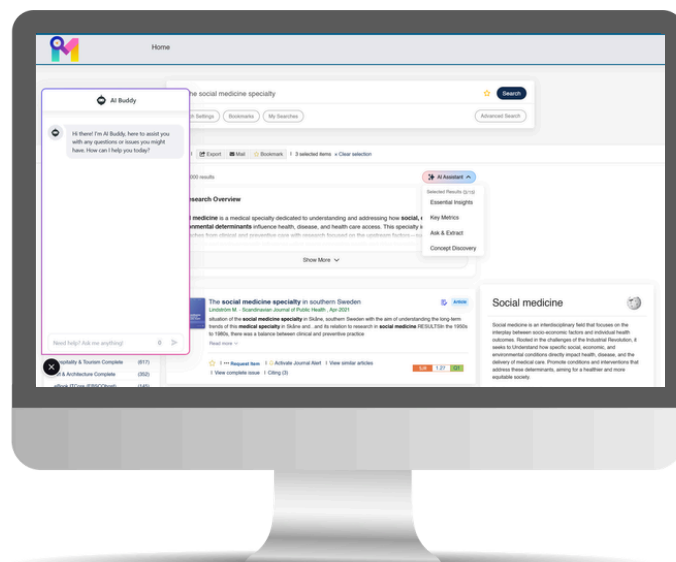

Configure access according to your institution's policies.

■ AI-Powered Search

Discover content across institution's collections, subscriptions and wealth of trusted sources.

■ Guided Research

Leverage AI to generate referenced summaries, extract simplified metrics, compare custom publication data, and enhance research effectiveness via smart search.

Service: Tailored to Your Needs

We provide professional services that adapt to your institution's specific requirements, ensuring a seamless experience.

Services include:

■ Customization & Branding

Personalize the user interface to reflect your institution's identity.

■ Integration Support

Smoothly integrate existing authentication system, institutional repository, LMS...

■ User Access Setup

Ensure secure and efficient user authentication.

■ Workflow Implementation

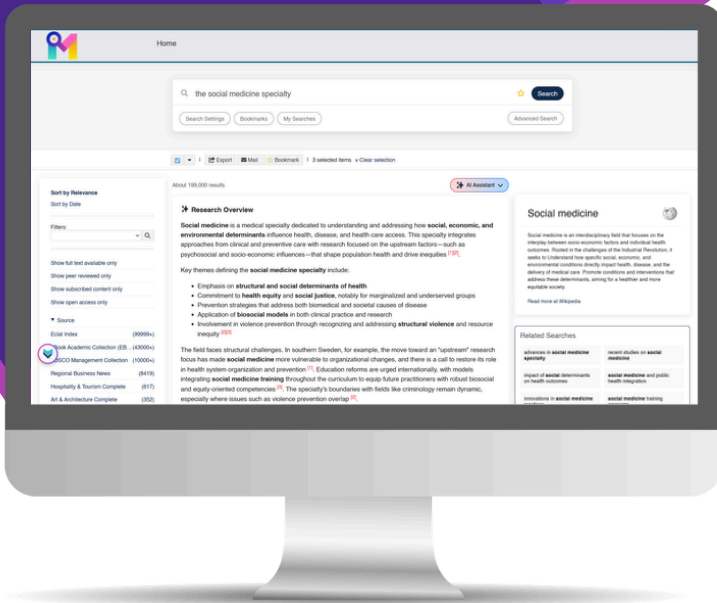

Optimize content discovery and delivery workflows.

■ Holdings Setup

Configure search interfaces and access settings with precision.

■ Local Content Management

Ingest and manage your unique resources with ease.

Content: Everything in One Place

All eResources indexed in a unified platform, including:

■ MyDiscovery Index

Access over **550+** million scholarly resources.

■ Institutional Repository Management

Effortlessly host, showcase, and manage your institution's unique digital repository content and local resources in one centralized place.

■ Extensive Content Coverage

Discover articles, books, reports, videos, conference proceedings, theses, and more in one search environment.

Transform how patrons discover and engage with knowledge.
Let **MyDiscovery's AI-powered** capabilities redefine
your library search experience.
